Summary:

- **3 years of experience in full stack development.**
- Familiarity with **backend development** using **PHP** and **C#**
- Skilled in **frontend development** with **HTML5**, **CSS3**, **JavaScript** and **React.js**.
- Committed to **continuous improvement** and keep learning new things.
- **Collaborated effectively with clients and colleagues** to achieve successful outcomes.

Technical Skills:

- ◆ Front-end: JavaScript, TypeScript, React, HTML, Bootstrap, jQuery, XML
- ◆ Back-end: PHP, Node JS, Express JS, Restful API, Firebase, C#
- ◆ Database: MySQL, MSSQL, MongoDB
- ◆ Other: Linux, GitHub, npm, Docker
- ◆ Multilingual: Fluent in English, Mandarin, and Cantonese. Proficient in Japanese

Work Experience:

NetSoft Limited (Sep 2020 – Present)

Full stack developer

PHP web content management system

- **Collaborated closely with clients** to gain a deep understanding of project requirements and expectations. Employed agile methodologies to adapt to changing client needs and ensure timely delivery of high-quality solutions.
- **Enhanced the web content management system** by introducing new functions to improve user experience and efficiency.
- **Designed and implemented database structures** to support the new functionalities, ensuring data integrity and scalability.
- **Developed new frontend web page** to facilitate the migration of content from an outdated website. Implemented linkages to seamlessly connect the new frontend web page with the existing content management system.
- **Addressed client challenges** by suggesting practical solutions, such as implementing sorting functions to manage large datasets effectively and using Chart.js to visually represent abstract data.
- **Demonstrated strong problem-solving skills in resolving bugs** encountered during the development process. Utilized inline debugging techniques and other helpful tools to pinpoint the root causes of encountered problems.
- **Attained a 50% reduction** in the client's daily workload by automating manual tasks.
- **Successfully completed the project within the designated timeline**, while concurrently enhancing outcomes in terms of design and functionality, our customers were highly satisfied with the quality of the work.

Education:

Hong Kong Baptist University (Aug 2018 – Sep 2020)

Bachelor of Science (Hons.) in Computer Science
