Objectives:

I am a result-driven programmer with **2.5 years of experience** in **website development**. Throughout my career, I have consistently demonstrated that I am **responsible, reliable**, and able to **deliver high-quality software products**. I established **strong working relationships**, fostered **open communication**, and **collaborated effectively with clients** and colleagues to achieve successful outcomes. I am seeking an opportunity to contribute to a dynamic team as a **full stack developer**.

Technical Skills:

- Front-end: JavaScript, TypeScript, React, HTML, Bootstrap, jQuery, XML
- Back-end: PHP, Node JS, Restful API, Express, Firebase, C#
- Database: MySQL, MSSQL, MongoDB
- Other: Linux, GitHub, npm
- Multilingual: Fluent in English, Mandarin, and Cantonese. Proficient in Japanese

Work Experience:

NetSoft Limited

Sep 2020 – Apr 2023

Analyst Programmer (full time)

- **Developed and optimized the CMS system** for efficient front-end content management. Constructed a front-end program that provided an exceptional user experience to clients and the public. **Attained a 50% reduction in the client's daily workload** by automating manual tasks.
- **Created and integrated a front-end search engine using Solr**, seamlessly connected to our CMS system for automatic data updates. This implementation significantly **enhanced website and content accessibility**. Our client was able to efficiently manage, update, and publish more than 270 project pages for public viewing, thus **significantly reducing their workload**.
- **Communicated and negotiated with clients** to comprehend their system requirements. Provided valuable suggestions and innovative solutions to align with and accomplish their goals. **Successfully completed the project within the designated timeline**, while concurrently enhancing outcomes in terms of design and functionality.
- **Addressed system bugs and issues within client workspaces**. Assisted clients in resolving unexpected problems during emergency situations to ensure that their work would not be interrupted by system errors or shutdowns.

Education:

Hong Kong Baptist University

Aug 2018 – Sep 2020

Bachelor of Science (Hons.) in Computer Science

Eligible holder of Canadian Open Work Permit
